## Panasonic

ideas for life

### Complete Workforce Mobility Solutions

All three rugged and wireless Panasonic Toughpad™ models are engineered with enterprise-grade security, seamless connectivity and a long legacy of rugged, reliable computing to create the most purpose-built tablets ever for mobile workers in any industry.

#### 10" TOUGH PAD FZ-A1 Powered by Android™

The Toughpad FZ-A1 is great for clipboard replacement, featuring a big daylight-readable display and true flexibility with docks, slots and a Micro-USB port.

- Android 4.0
- 500-nit daylight-readable display
- Multi touch + digitizer screen
- All-weather, dust and water-resistant
- Safe for use in extreme temperatures and environments
- Withstands multiple 4ft. drops
- Long battery life
- GPS, Wi-Fi, Bluetooth® and optional 4G LTE mobile broadband
- Forward and rear-facing cameras
- 3-year warranty with business-class support

#### 7" TOUGH PAD JT-B1 Powered by Android™

As the lightest Panasonic mobile computer on the market, the new Toughpad JT-B1 is ideal for one-handed use and is small enough to fit in a coat or cargo pocket.

- Android 4.0
- 500-nit daylight-readable display
- Multi touch Gorilla® Glass 2 display
- All-weather, dust and water-resistant
- Safe for use in extreme temperatures and environments
- Withstands multiple 5ft. drops
- Long battery life
- GPS, Wi-Fi, Bluetooth® and optional 4G LTE broadband
- Forward and rear-facing cameras
- Expansion for barcode and MSR readers<sup>1</sup>
- Near Field Communications (NFC)
- 3-year warranty with business-class support

#### 10" TOUGH PAD FZ-G1 Windows® 8 Pro

Available this spring, the Toughpad FZ-G1, operating on Windows® 8 OS, delivers a fluid user experience while providing essential port connectivity and feature-rich options in a compact package.

- 3rd generation Intel® Core™ i5 CPU
- 800-nit high-definition sunlight-viewable LCD display
- Multi touch + digitizer screen
- All-weather, dust and water-resistant
- Safe for use in extreme temperatures and environments
- Withstands multiple 4ft. drops
- Long battery life
- Variety of ports
- Forward and rear-facing cameras
- A variety of configurable options, such as Wi-Fi, GPS and more.

<sup>1</sup>Coming soon

## Work Confidently, Anywhere

Fully-rugged Toughpad tablets are MIL-STD-810G and IP65 certified and resistant to dust, water and up to 5ft. drops, so mobile users can work without restrictions even in extreme temperatures.

## Keep Your Mobile Data Secure

Each model contains software security to keep your data safe, as well as individual security features. For example, the Toughpad FZ-A1 includes hardware encryption and a dedicated processor that keeps secured information separate from the main processors for ultimate device protection.

## Protect and Manage Your Field Tablets

Panasonic tablets are compatible with device controls for Mobile Device Management software, which allows the tablets to be managed and highly secured by a network administrator.

## Send and Receive Data in a Blink

Available 4G LTE broadband delivers faster, more reliable speeds for better information delivery.

## The Support to Succeed

An extensive group of dedicated partners is always there to provide you with everything you need, in terms of accessory hardware, software and services, to ensure a complete, worry-free and industry-specific workforce mobility solution.
